

Facestock

Imprintable matt silver polyester film, with a special absorbent surface coating, void printed.

Basis Weight 76 g/m 2 ISO 536 Caliper 60 μm ISO 534

Adhesive

A permanent, acrylic based adhesive.

Liner

Hygroflat 100 FSC, a one side coated, bleached kraft paper.

The liner is made from FSC® certified paper (FSC Mix Credit, chain-of-custody number: CU-COC-807907, Licence Code: FSC-C004451).

Basis Weight 100 g/m 2 ISO 536 Caliper 108 μm ISO 534

Laminate

Total Caliper 184 µm±10% ISO 534

Performance Data

Initial Tack 11 N/25mm FTM 9 Glass Peel Adhesion 90° 9 N/25mm FTM 2 St.St.

Min. Application Temp. 5 °C

Service Temperature -40 °C to 90 °C

Adhesive Performance

The adhesive is perfectly suitable for uses that need a good resistance to UV, fats or solvents. Good general adhesion performance on a wide range of substrates.

Applications and Use

Once applied to the substrate on removal, an irreversible "void" footprint message - formely invisible to the eye - will detach itself from the face film. Labels which have been removed cannot be reapplied since repositioning will leave visible proof that tampering has taken place.

The hygroflat backing paper is specially suited to the more critical refanfolding demands of high-speed computer printers, providing optimum layflatness and excellent interfolding characteristics.

Conversion and Printing

Printable by all conventional printing techniques such as Rotogravure, Flexography, Letter press, Silk screen, UV cure, Laser. Thermal Transfer printing is subject to ribbon compatibility.

Shelf Life

To obtain optimal performance, use this product within two years of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
