

Facestock

A White, uncoated matt 100% Cotton paper with a Unique 'Velvet finish' appearance. Wet strength and fungicidal treatments.

Basis Weight	115 g/m ²	ISO 536
Caliper	217 µm	ISO 534

Adhesive

A general purpose permanent, acrylic based adhesive.

Liner

BG45 white, a supercalendered glassine paper.

Basis Weight	71 g/m ²	ISO 536
Caliper	61 µm	ISO 534
Transparency	50 %	DIN 53147

Laminate

Total Caliper	299 µm±10%	ISO 534

Performance Data

Initial Tack	20 N/25mm	FTM 9 Glass
Peel Adhesion 90°	7 N/25mm	FTM 2 St.St.
Min. Application Temp.	5 °C	
Service Temperature	-20 °C to 80 °C	

Adhesive Performance

The adhesive features high initial tack, excellent adhesion and good low temperature performance on a wide variety of substrates. Specially designed for wine labelling applications it allows easy conversion of difficult label shapes.

Applications and Use

This product is designed for Wine labelling, it is suitable for primary labelling of high and premium goods eg: spirits, specialist foods. Due to its high stiffness it is not recommended for labelling on small diameter surfaces (eg. neck labels or mini bottles) or more difficult curved bottles. It is important to apply adequate pressure during the labelling process to ensure a good adhesion performance on the substrate. Care should be taken when adding embellishments as this will affect the adhesion. In addition bottles should be washed and dried before label application to ensure optimum adhesion. It is recommended to run a dispensing test in order to check that pressure is adequate, especially in case of more complex label shapes.

Conversion and Printing

Printable by Offset, Screen, Hot Foil. Due to the stiffness of the paper, the internal winding is not recommended.

Shelf Life

To obtain optimal performance, use this product within one year of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
