

Facestock

A clear Polyester film, siliconized and with low release.

Basis Weight	51 g/m ²	ISO 536
Caliper	36 µm	ISO 534
Elongation CD	80 %	DIN 53455
Elongation MD	95 %	DIN 53455
Tensile Str. MD	110 N/15mm	DIN 53455
Tensile Str. CD	140 N/15mm	DIN 53455
Release level	10 g/cm	FTM4 Tesa 7475

Applications and Use

For direct and indirect adhesive coating applications. The product typically is being used as a release liner for die-cutting special self-adhesive constructions on conversion presses, where a liner with high clarity, consistent thickness, very good dimensional stability and a high smoothness level is needed. It also has a good adhesive wet-out, resulting in high adhesive clarity.

Conversion and Printing

Specially designed for high speed conversion, punching and perforation.

Shelf Life

To obtain optimal performance, use this product within one year of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
