

Facestock

A matt, white, triple-layer adhesive coated PET laminate with a direct thermal printable paper on one side. Ideal for stapeled Tag's on wooden boxes requiring good resistance to moisture and contaminants and high tear resistance.

Basis Weight	230 g/m ²	ISO 536
Caliper	193 µm	ISO 534
Caliper (film only)	50 µm	T411
Weight (base paper)	80 g/m ²	ISO 536

Applications and Use

This product is ideal for applications such as stapeled Tag's on wooden boxes or pallets, heavy duty tags like poastal bag tags and commercial tags.

Conversion and Printing

The product can be converted by all conventional roll conversion technologies including: Letterpress, Offset, Screenprinting, UV flexo and Water-based flexo. This product is also suitable for variable information printing in: Direct thermal printing systems at printing speeds up to 200 mm/sec (based on the printer's set up). **IMPORTANT NOTES:** Due to the thermographic properties, exposure above 50°C may cause premature imaging or discolouration. Inks containing alcohol or volatile organic solvents may cause discolouration of the thermosensitive coating. It is advisable to test inks and varnishes before conversion.

Shelf Life

To obtain optimal performance, use this product within one year of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
