

Facestock

A white matt, uncoated, smooth woodfree printing paper. Wet strength, fungicidal treatments and very good wet opacity. The rPLUS underlamine contains 70% post consumer recycled content (PCR), ensuring optimum performances in the ice bucket, and in wet conditions in general, by minimizing the risk of wrinkling of the material.

The facestock is made from FSC® certified paper (FSC Mix Credit, chain-of-custody number: CU-COC-807907, Licence Code: FSC-C004451)

Basis Weight	187 g/m ²	ISO 536
Caliper	180 µm	ISO 534

Laminate

Total Caliper	183 µm±10%	ISO 534

Applications and Use

This product is designed for Wine labelling, it is suitable for primary labelling of high and premium goods e.g. spirits, specialist foods. Due to its high stiffness it is not recommended for labelling on small diameters, neck labels in particular.

Conversion and Printing

Printable by all conventional printing techniques. Due to open and textured nature of the facematerial, best results are in general from those techniques with maximum conformability of printing plate such as flexo and offset. Excellent results, in line with desired image, using offset or screen.

Shelf Life

To obtain optimal performance, use this product within two years of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
